

Biodiesel Alliance and Backers

The National Biodiesel Board created the Biodiesel Alliance and Backers program. It has received support from the United Soybean Board, state soybean organizations as well as the U.S. Department of Agriculture.

Diesel Technicians

"Diesel engines are my life. Having participated in the Biodiesel for Diesel Technicians training course, I am well versed on the benefits of biodiesel and its compatibility with diesel engines.

I look forward to taking advantage of the resources the Biodiesel Alliance offers as I move forward in my career."

— Zeth Poettker,
Diesel Technician,
Studied at Wabash Valley College,
Mt. Carmel, Illinois

FACES OF THE Biodiesel Alliance

Find out what's in it for YOU!

Biodiesel Alliance and Backers

From biodiesel pump openings, to grant announcements to the latest biodiesel research and industry news, [the Biodiesel Alliance can provide you with information and resources to help make your job easier.](#)

It's simple. The Biodiesel Alliance is a diverse coalition of organizations, agencies and businesses from across the country that support the use of biodiesel. The Biodiesel Backers program is the same thing, except it's for individuals. *It's free and it's voluntary.*

Won't you join them?

Fleet Managers

"My job is to manage a 1,570 vehicle and equipment fleet located in Arlington, Virginia in the most cost-effective and environmentally responsible way possible. I believe in the benefits of biodiesel including increased energy independence and improved air quality."

The Biodiesel Alliance brings together diverse constituencies from a wide-range of sectors who share the common goal of advancing the use of this cleaner-burning fuel."

— Allen Mitchell,
Equipment Bureau Chief for
Arlington County, Virginia

Health Groups

"Part of our mission as a public health group is helping people recognize the benefits of using alternative fuels such as biodiesel to reduce air pollution through cleaner burning renewable fuels."

The Biodiesel Alliance helps us stay current on the latest developments in the biodiesel industry which we can then use as we work to reduce environmental pollutants that cause respiratory disease, asthma and lung cancer."

— Margo Sidener, President & CEO,
Breathe California and Co-Coordinator
of Silicon Valley Clean Cities Coalition

School Districts

"As the person tasked with ensuring the safe and healthful transportation of more than 3,500 school children each day, I rely on biodiesel to help me achieve that goal. It has been proven that biodiesel improves air quality both outside and inside of school buses."

I'm proud to be a long-time member of the Biodiesel Alliance which over the years has provided me with biodiesel-related news and data that I otherwise would not have known about."

— Joe Biluck,
Director of Operations and Technology,
Medford Township Board of Education,
Medford, NJ
